- Embedded in all aspects of human activity

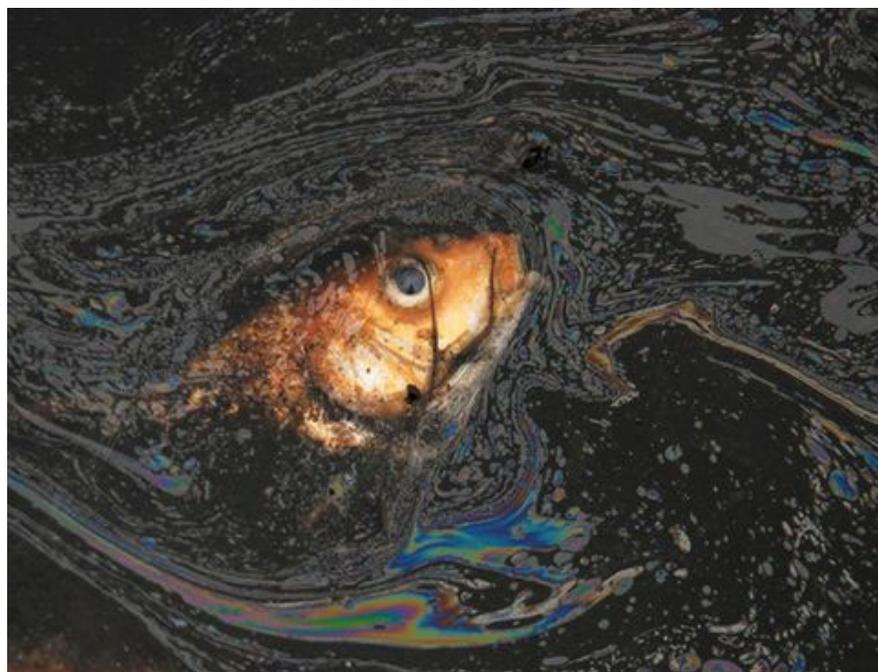

## USES FOR OIL

### Common Petroleum Products

### Petroleum Is Commonly Used To Make

# PLASTIC OCEAN

192 COUNTRIES BORDERING THE ATLANTIC, PACIFIC, INDIAN OCEANS AND MEDITERRANEAN AND BLACK SEAS PRODUCED **2.5 BILLION METRIC TONS OF SOLID WASTE IN 2010**. AN ESTIMATED **8 MILLION METRIC TONS** OF PLASTIC ENTERED THE OCEAN THAT SAME YEAR.

Ocean Conservancy

**2.5 BILLION**

METRIC TONS OF SOLID WASTE IS PRODUCED ALL AROUND THE WORLD

AND WITHIN THAT **275M** METRIC TONS IS PLASTIC WASTE

2 BILLION PEOPLE WITHIN 30 MILES OF THE COAST CREATE

**100M** METRIC TONS OF COASTAL PLASTIC WASTE

AND EVERY YEAR,

**8 MILLION** METRIC TONS OF PLASTIC GOES INTO THE OCEAN

WHAT WE CAN DO

REDUCE PLASTIC IN WASTE STREAM

IMPROVE SOLID WASTE MANAGEMENT

INCREASE CAPTURE & REUSE

HEALTHY OCEANS

# Climate Change – The Situation

# The Consequences

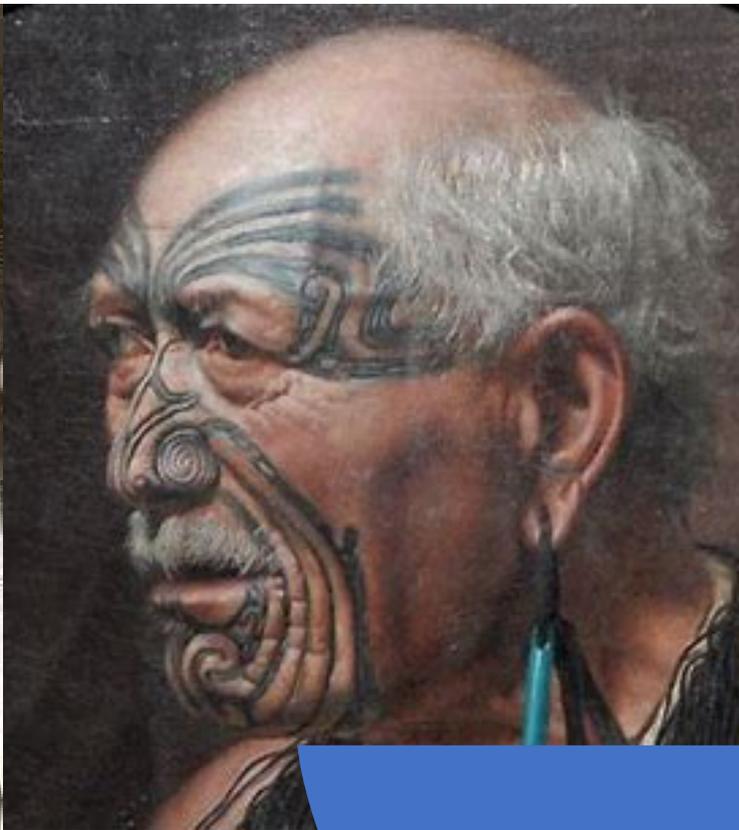

---

# The Causes

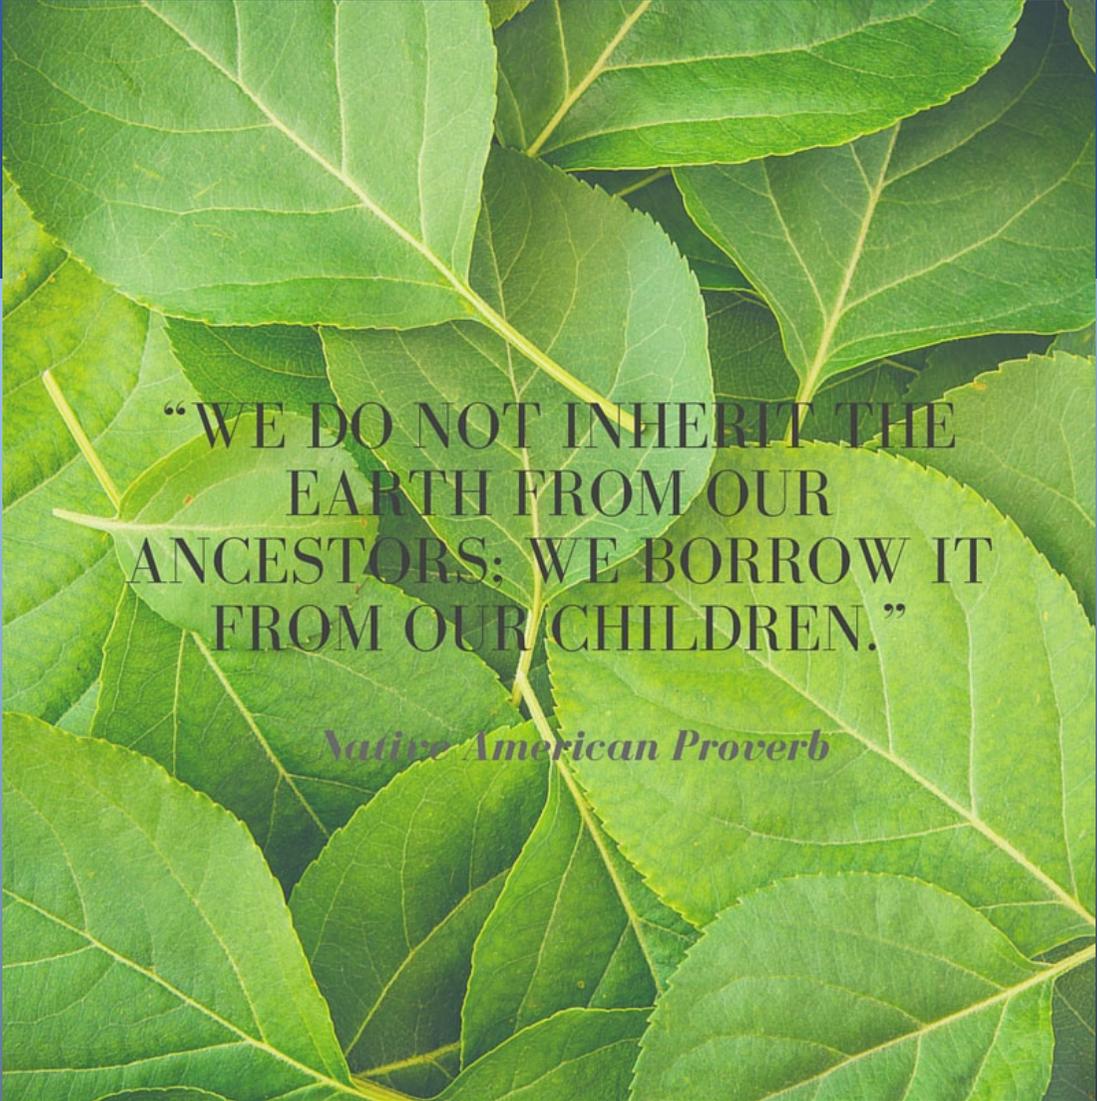

# Need to Change Approach or Else...

Can we Learn Lessons from Previous Generations?

“WE DO NOT INHERIT THE  
EARTH FROM OUR  
ANCESTORS; WE BORROW IT  
FROM OUR CHILDREN.”

*Native American Proverb*

# What direction should we go in?

## Do HEIs have a role?

- Absolutely
- HE community is very responsible for the current position
- Significant proportion of our population engage in HE
- Need to lead in embedding sustainability in human mindsets

# Sustainability and the Green Transition within the HE sector

The screenshot shows the GET-AHED website dashboard with a green and grey color scheme. At the top, it says "GET AHEAD Your Green Transition Digital Buddy" with a "What's this about?" button. Below are several content cards:

- HE GREEN ASSESSMENT**: Integration and Sustainability for the green transition. Includes a wind turbine image and a "Learn More" button.
- HE GREEN CHAMPIONS**: Boost the green transition capacity of leaders, staff, students and stakeholders in Higher Education. Includes a leaf image and a "Learn More" button.
- HE GREEN ZERO**: An online tool dedicated to improving sustainable operations in your Higher Education institution. Includes a solar panel image and a "Learn More" button.

A section titled "A GREENER TOMORROW" contains six icons with corresponding text:

- Project News**: What is happening now?
- Supporting education leaders**: Where do we go next?
- Ongoing Research**: What does the research say?
- Data driven Information from across EU HEIs**: What do other HEIs think?
- Analytics**: Where is our information coming from?

# How are Higher Education Institutions Doing?

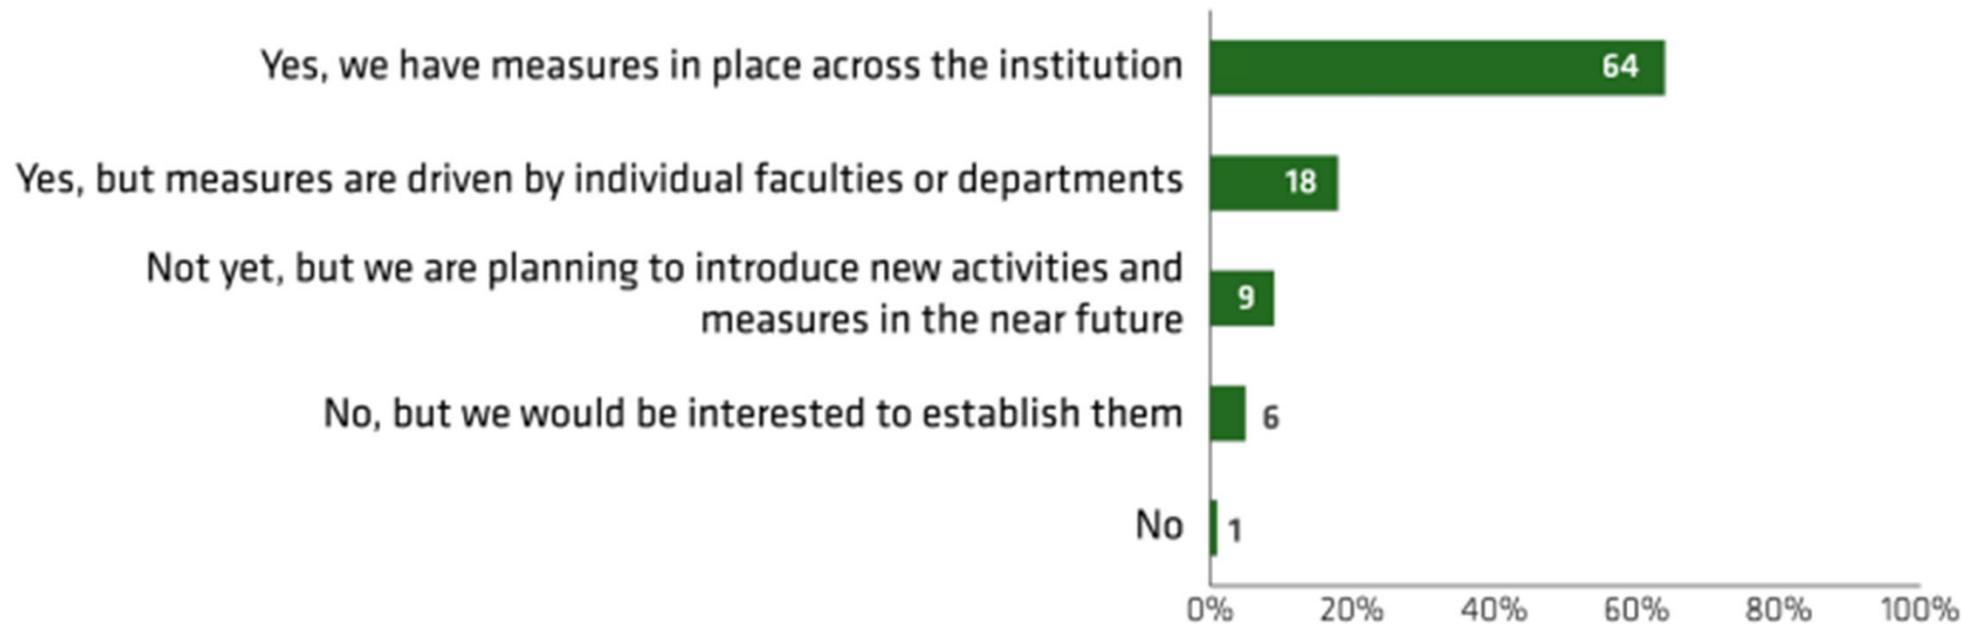

## Greening in European higher education institutions

**EUA survey data**

September 2021

Michael Gaebel, Henriette Stöber, Alison Morrisroe

# EUA greening survey, 2021 (1)

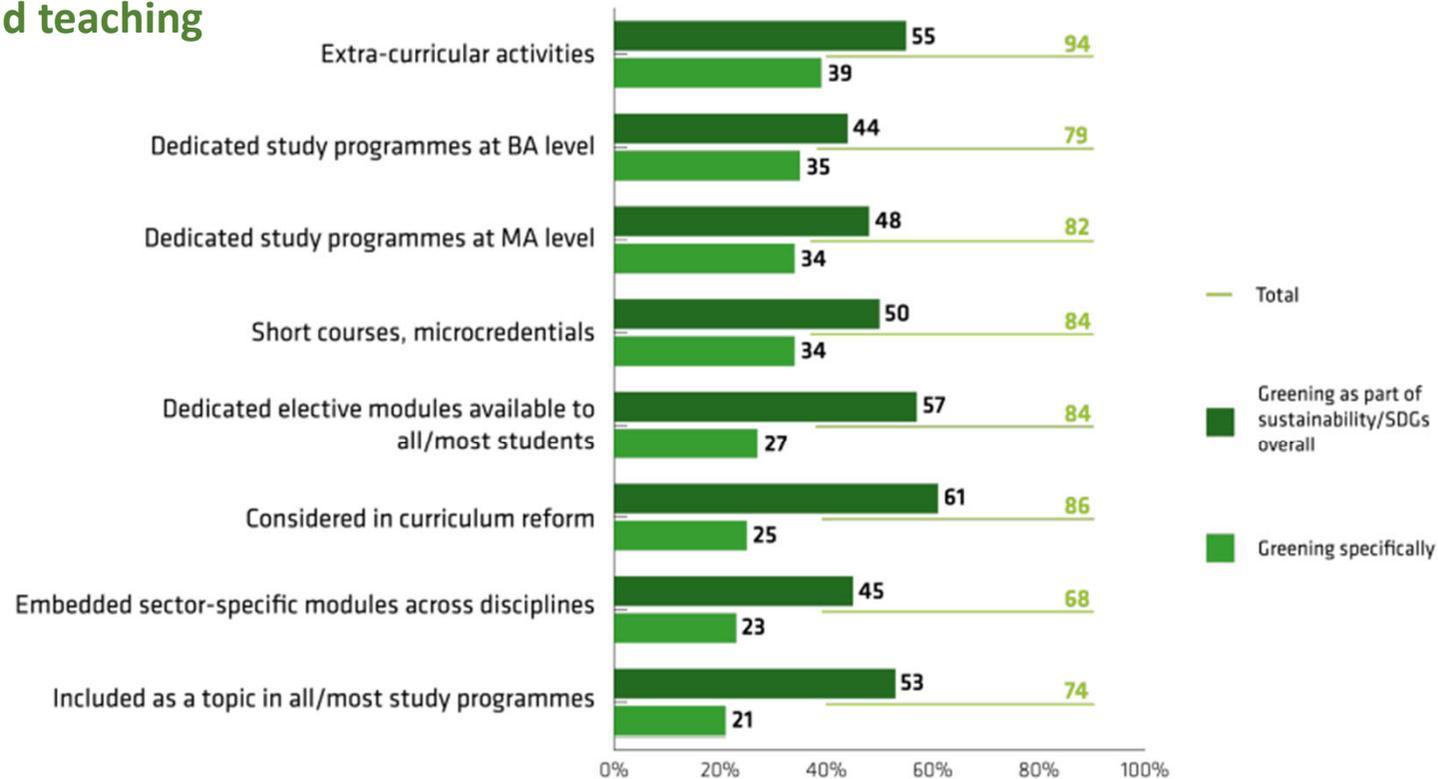

*N=372. Q5: Does your institution have any greening measures in place? Please select one option.*

# EUA greening survey, 2021 (2)

## Learning and teaching

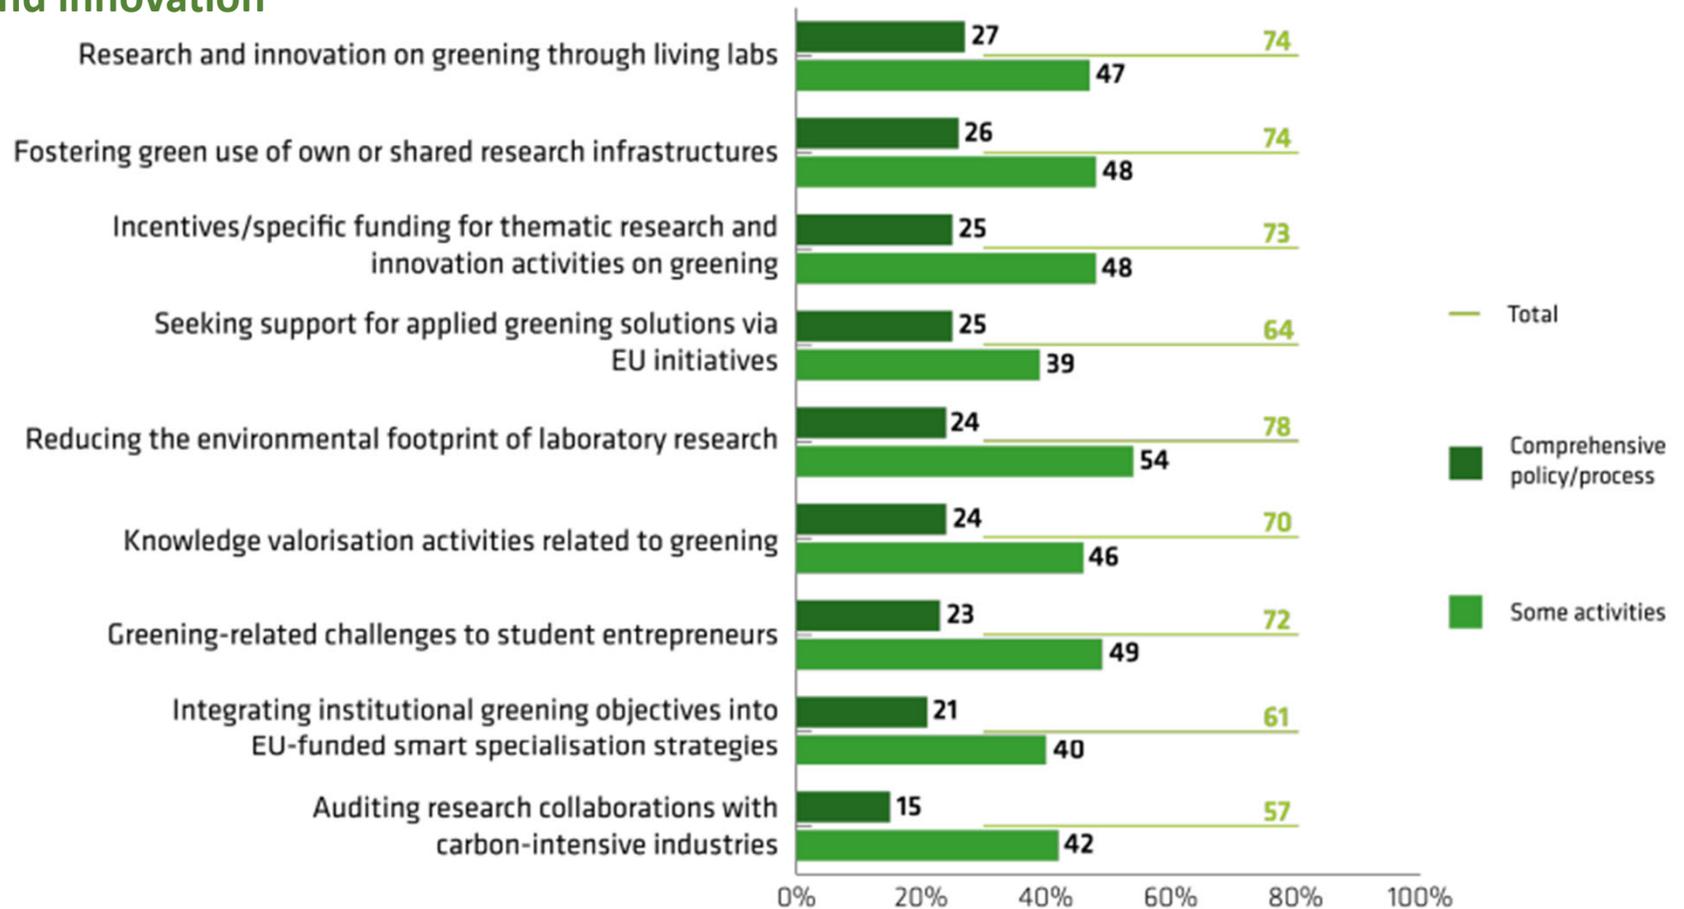

*N=305. Q6: Which of the following activities and measures take place at your institution? Please select all that apply in the following categories.*

# EUA greening survey, 2021 (3)

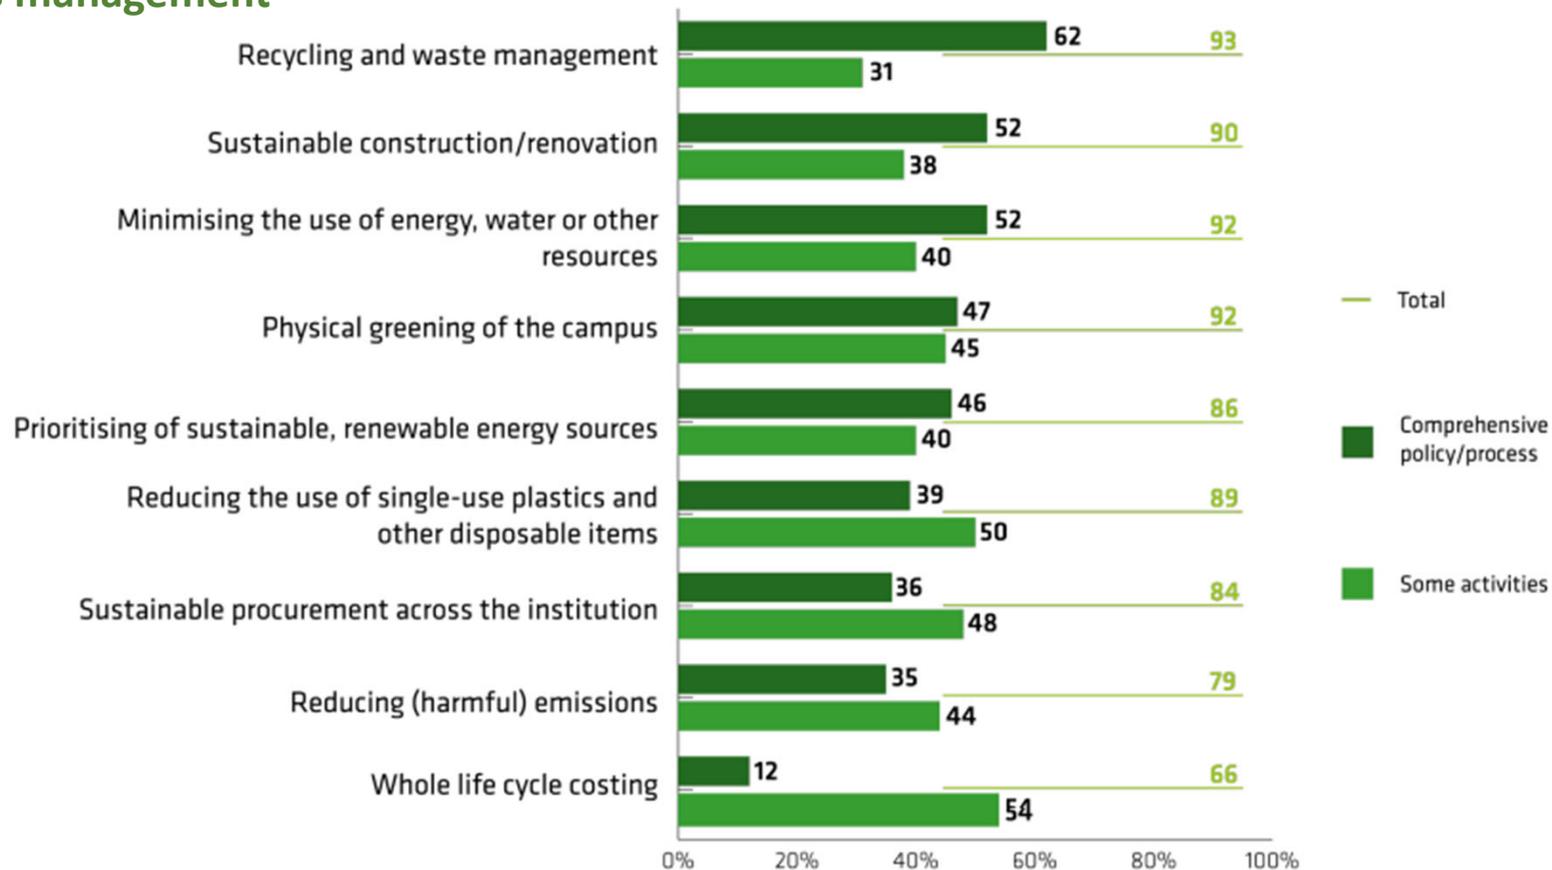

## Research and innovation

# EUA greening survey, 2021 (4)

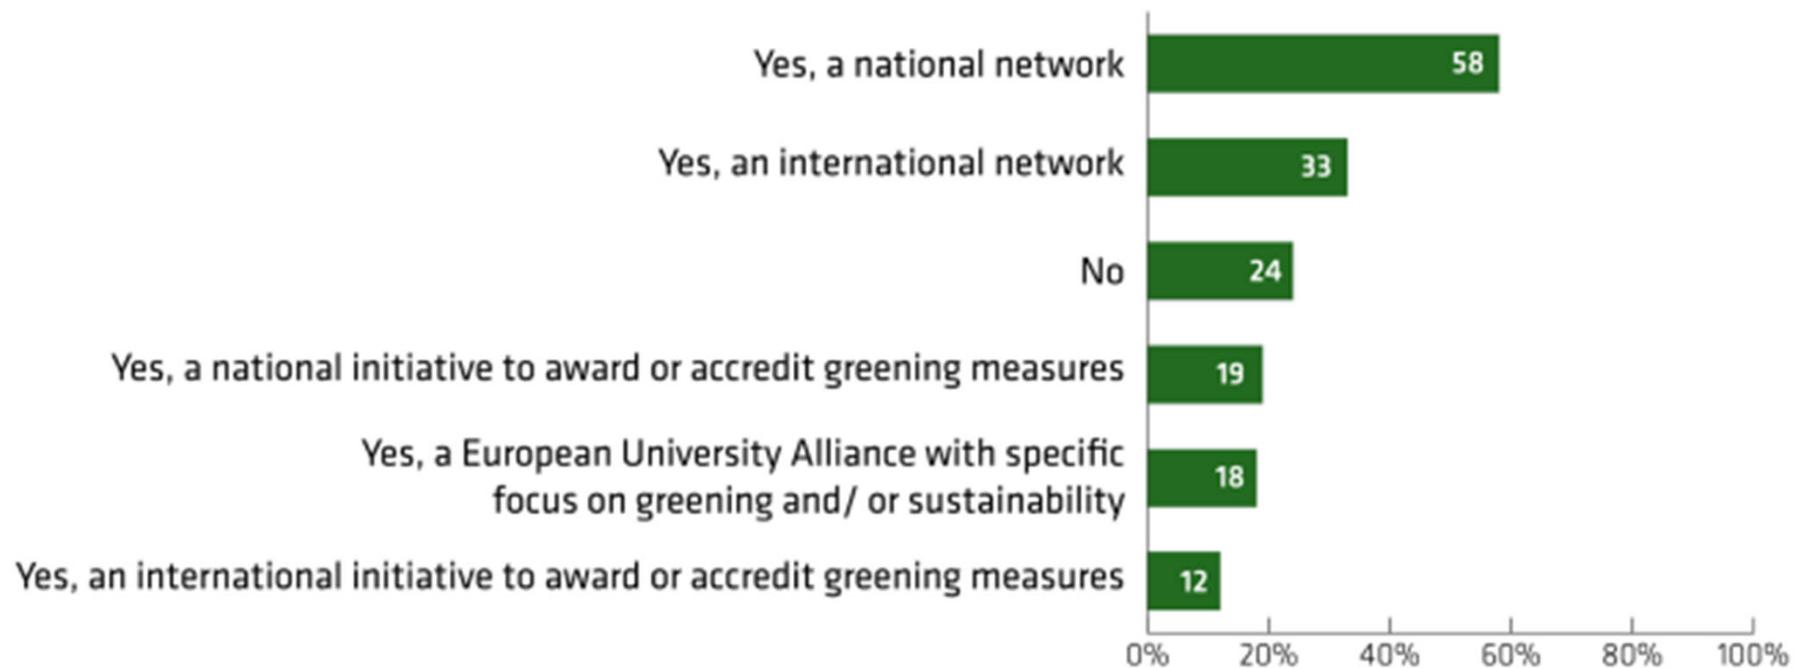

## Campus management

# EUA greening survey, 2021 (5)

## Networks

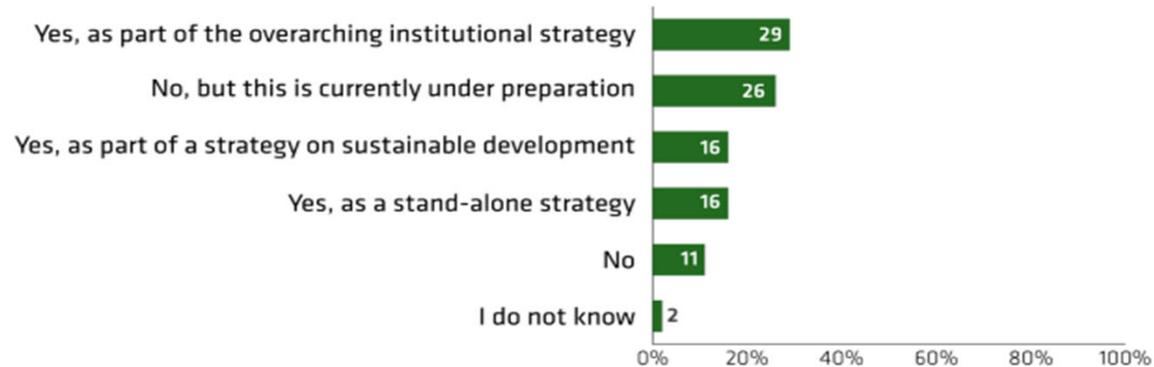

*N=305. Q8: Are you part of any networks or working groups on greening? Please select all that apply.*

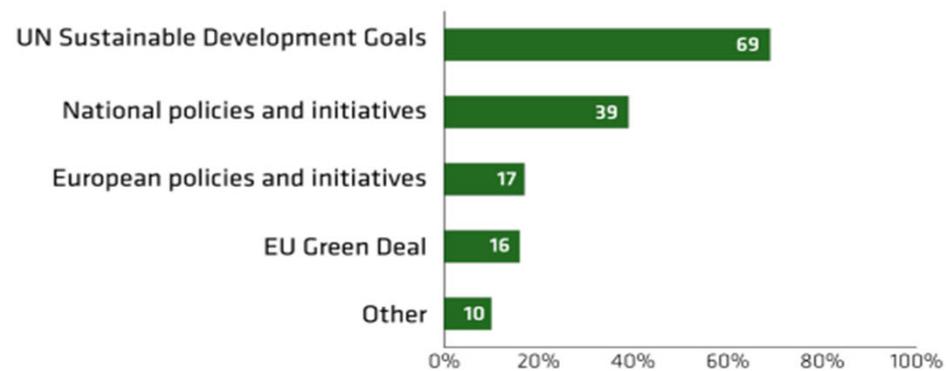

# EUA greening survey, 2021 (6)

## Strategy

*N=305. Q8: Are you part of any networks or working groups on greening? Please select all that apply.*

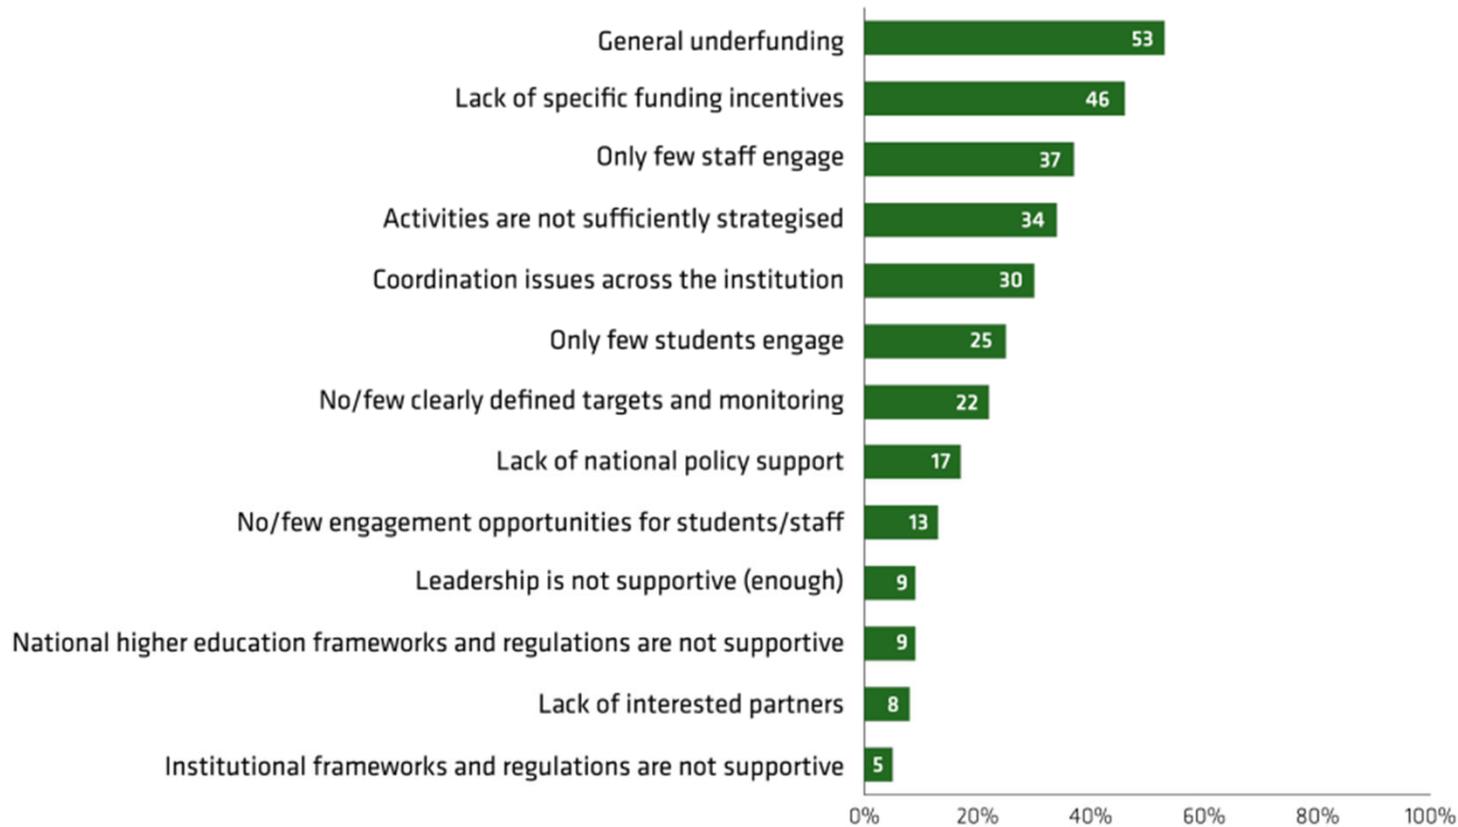

*N=185. Q9.1: If yes, does your strategy explicitly relate to any of the following? Please select all that apply.*

# EUA greening survey, 2021 (7)

## Barriers

*N=305. Q13: Which barriers does the implementation of greening measures face at your institution? Please select up to five barriers.*

# Examples of HEIs with a focus on greening (1)

## **Trinity College Dublin**

Sustainability has been at the heart of Trinity College Dublin for many years. The university's green campus committee was founded back in 1993 and the university published its first sustainable development policy in 2008. Trinity's Strategic Plan for 2020-2025 includes research for impact and sustainability among its priorities and articulates nine cross-cutting goals relating to sustainability.

These include reducing the university's carbon footprint, improving energy use, waste reduction, sustainable transport and biodiversity, and ensuring all new buildings are based on sustainability principles. The Martin Naughton E3 Learning Foundry is Trinity's flagship project in sustainability, and all disciplines and schools will need to be aligned and involved to make a contribution to achieving the SDGs.

## Examples of HEIs with focus on greening (2)

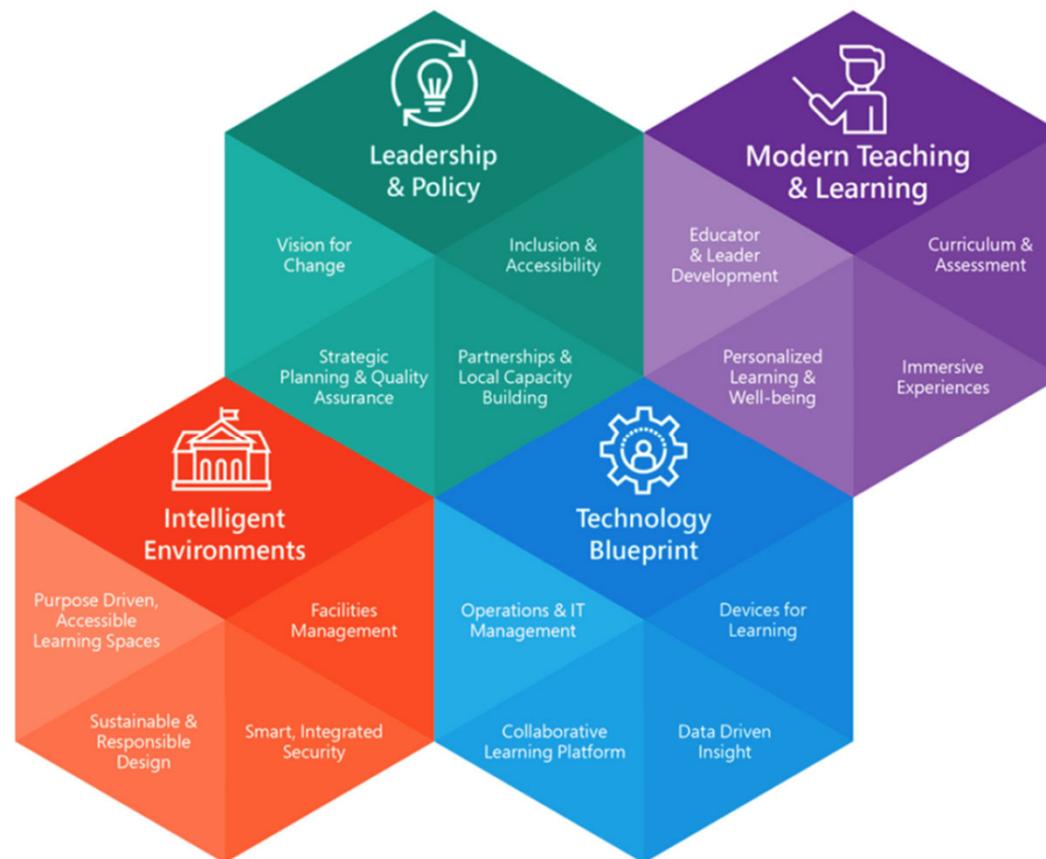

**Prince Sultan University** – PSU is the first *Carbon Neutral*-certified company in the MENA-region. The university is working with Climate Impact Partners to assess the greenhouse gas emissions and take steps to reduce emissions through internal emission reduction activities. Projects are being supported to support Renewable Energy installations.

Prince Sultan University is the First Saudi University to Pledge Net Zero Carbon University by 2060. Race to Zero for Universities and Colleges campaign is run in partnership with EAUC, Second Nature and UN Environment. PSU's Center for Sustainability and Climate (CSC) “transforms commitments into action” and builds a decarbonized, more sustainable world, driving technological and economic transformations to **realize sustainable competitive advantage**. It also coordinates, promotes, and accelerates interdisciplinary **research and training on sustainability and climate**, and the role of humans in the environment.

# Has the Digital Transformation Agenda Assisted with Embedding Greening and Sustainability in HE?

# Digital Sustainability Tools for HEIs

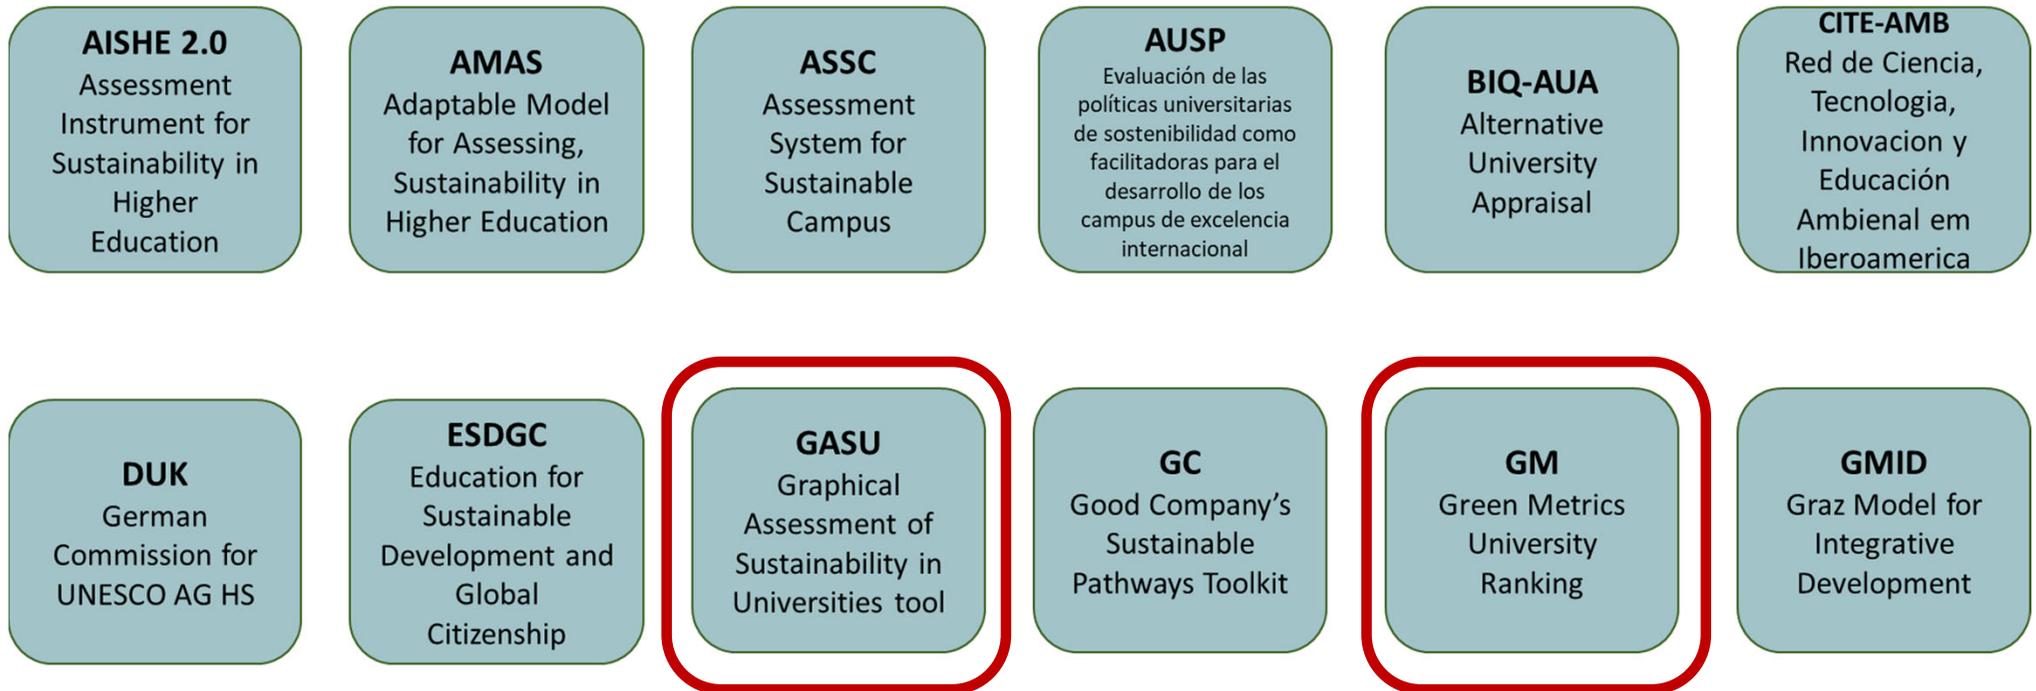

- 
- Since the early 2000s, digital sustainability tools for HEIs have emerged and are nowadays numerous and widespread.

These digital tools have had many functions including

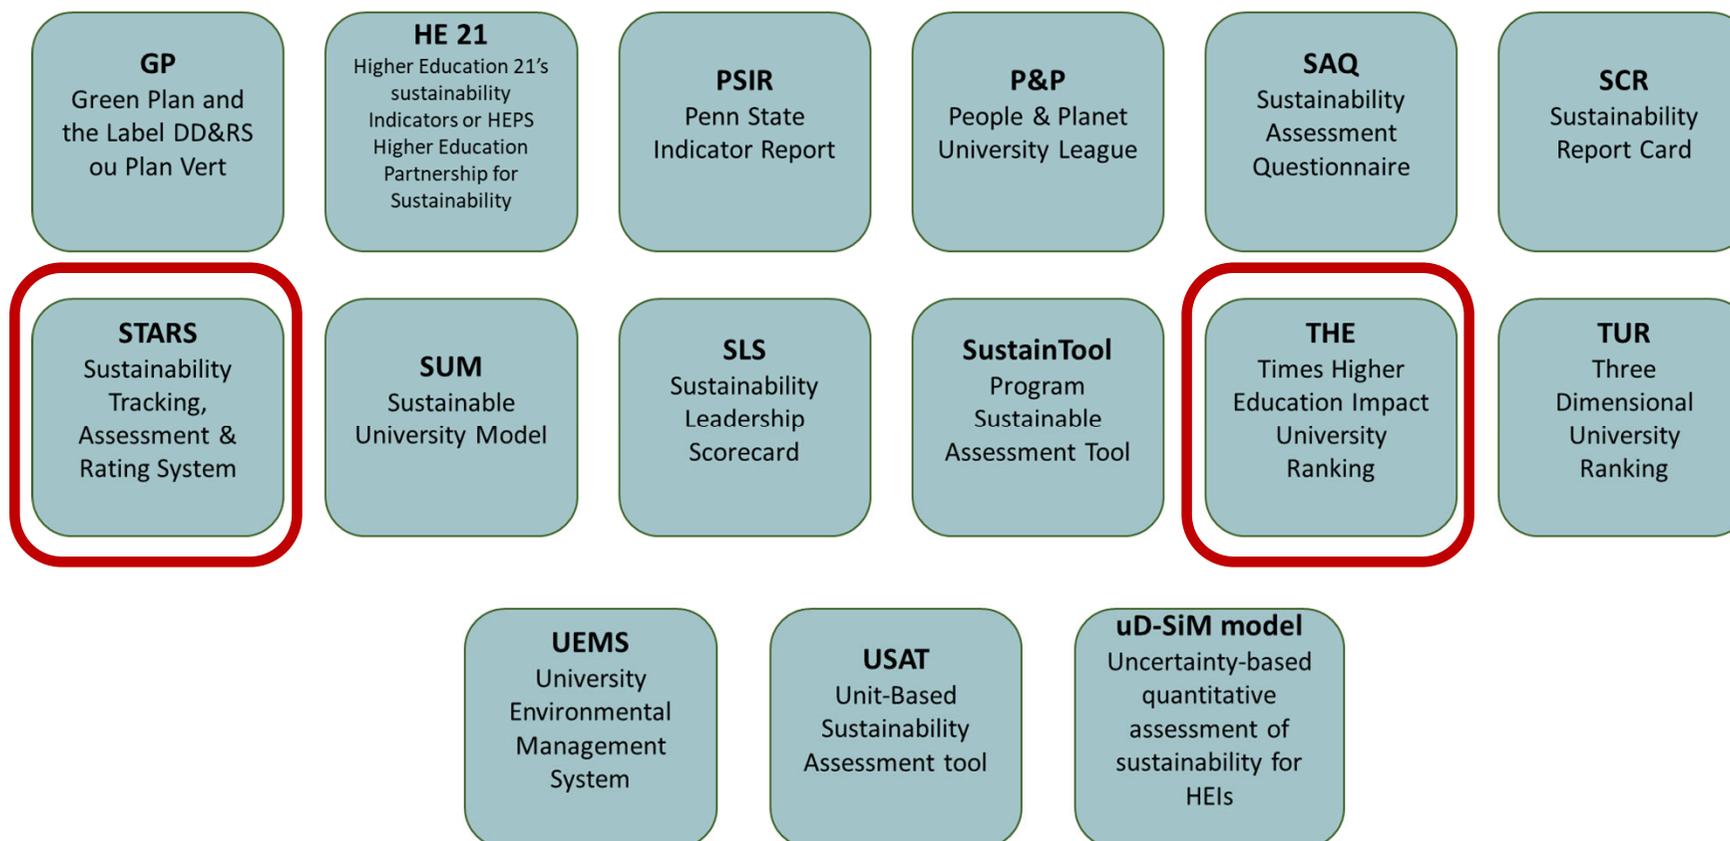

- (i) supporting self-assessment of the integration of sustainability within institutional strategies and activities
- (ii) improving awareness of sustainability among staff and students
- (iii) improving sustainable operations in areas such as energy and transport.

# Sustainability Assessment Tools (SATs)

## 72 currently available

# 3 – Highlighted Sustainable Assessment Tools (SATs)

# Examples - Sustainability Assessment Tools

- [Sustainable Campus Assessment System \(ASSC\)](#) – focus on campus sustainability, sustainability education and research, living laboratory, students involvement (Hokkaido University, 2013)
- [Sustainability Tracking, Assessment and Rating system \(STARS\)](#) – transparent, self reporting framework for HEIs to measure their sustainability performance (Association for the Advancement of Sustainability in Higher Education, AASHE)
- [Assessment Instrument for Sustainability in Higher Education \(AISHE\)](#) – originally developed by Dutch Foundation of Sustainable Higher Education 2001, more recently „AISHE 2“ by an international group (NL, SE, AT, ES)
- [Graphical Assessment of Sustainability in Universities \(GASU\)](#) – to facilitate the analysis, longitudinal comparison and benchmarking of HEIs' sustainability efforts
- [Impact Rankings 2023 | Times Higher Education \(THE\)](#) the only global performance tables that assess universities against the United Nations' Sustainable Development Goals (SDGs)

Become a pioneer of the European Green Transition.

Tools for the Green Transition

# GET-AHED

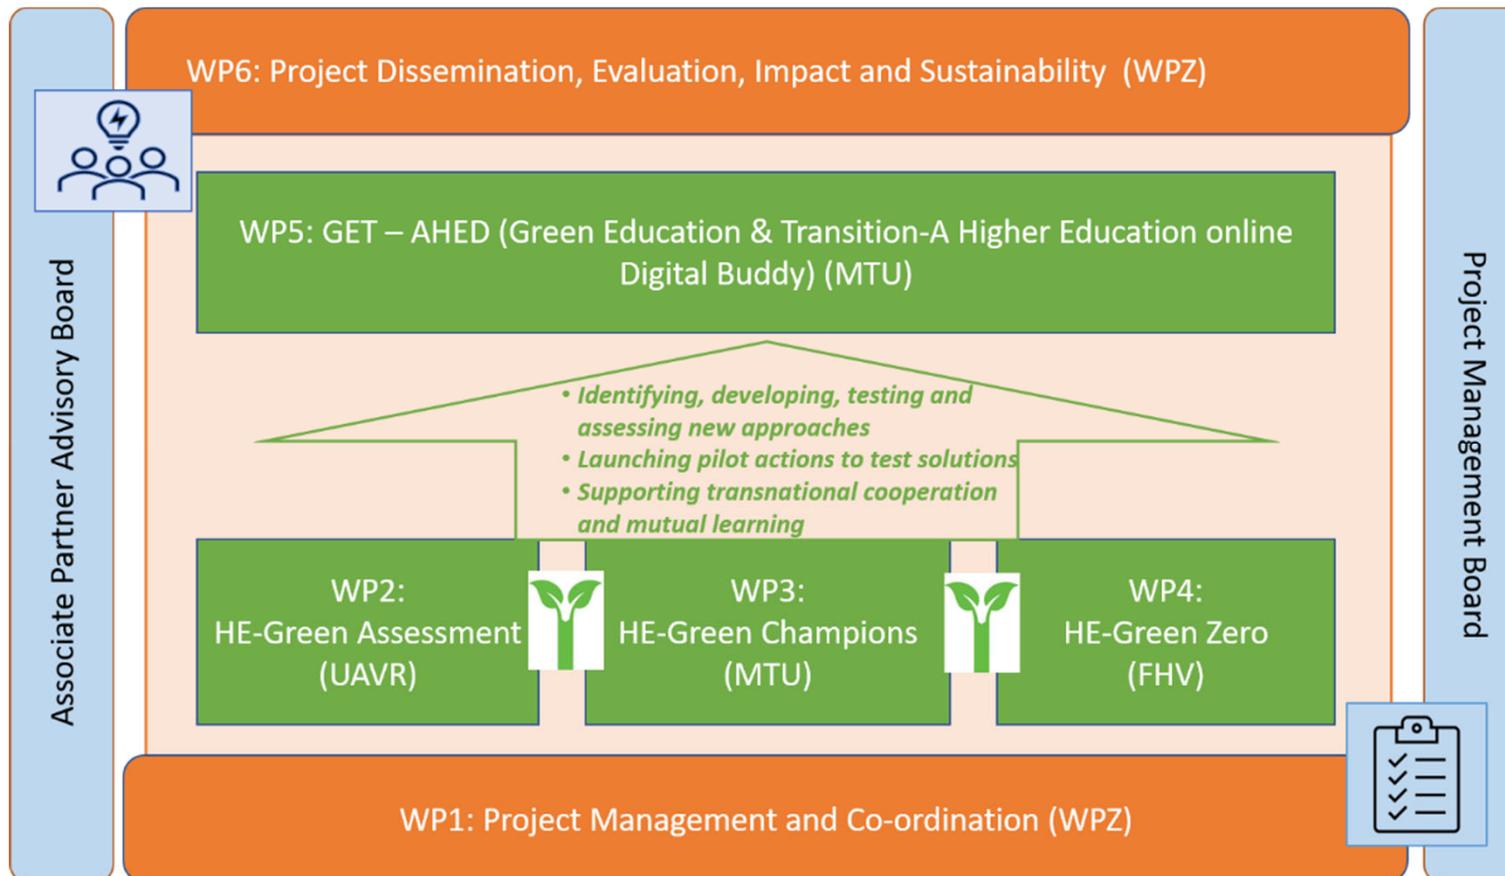

- A **digital platform developed** in consultation with:
  - a number of associate partner EU ministries,
  - HEI representative bodies and
  - an existing European University alliance
- Which will provide HEIs across the EU with a **range of online tools to enable them to implement the EU's Green Transition** and Green Education and Training priorities.
- GET-AHED will act as a **green transition digital buddy** for the HE community across the EU.

# GET-AHED

- The platform will provide a range of tools to allow a multiple of HE stakeholder groups to **promote and develop whole institutional approaches to sustainability** which will focus on:
  - Designing, implementing, and monitoring institution sustainability plans
  - Supporting Higher Education leaders, in embedding sustainability into all aspects of the institution's operations
  - Supporting staff and students in promoting greater involvement in sustainability initiatives both internally and externally.
  - Designing, implementing, and monitoring approaches related to sustainability operations of a HEI and in particular energy and energy related systems

# Get-AHED work packages

# The Tools

- An online self-assessment tool (**HE Green Assessment**) whose design will be based on the model and principals of the EUs HEInnovate online self-assessment tool; which will allow HEIs to assess themselves in terms of the level of integration of sustainability and green transition across a range of indicators and dimensions
- An online training system (**HE Green Champions**) which will boost the green transition capacity of internal stakeholders in HEIs by providing learning initiatives for (i) HEI leaders to help them embed sustainability into the operations of a HEI, and (ii) staff and students which will support their involvement in sustainability initiatives and developing links with local community groups and other partners beyond the education institution.
- An online tool (**HE Green Zero**) dedicated to improving sustainable operations in the HEI relevant to energy and energy related systems focussed on the ultimate goal of achieving net zero energy on school/campus sites. The tool will be based on a range of available best practice examples and will be relevant to the dimensions and indicators of the HE Green Assessment tool

Service to  
Society

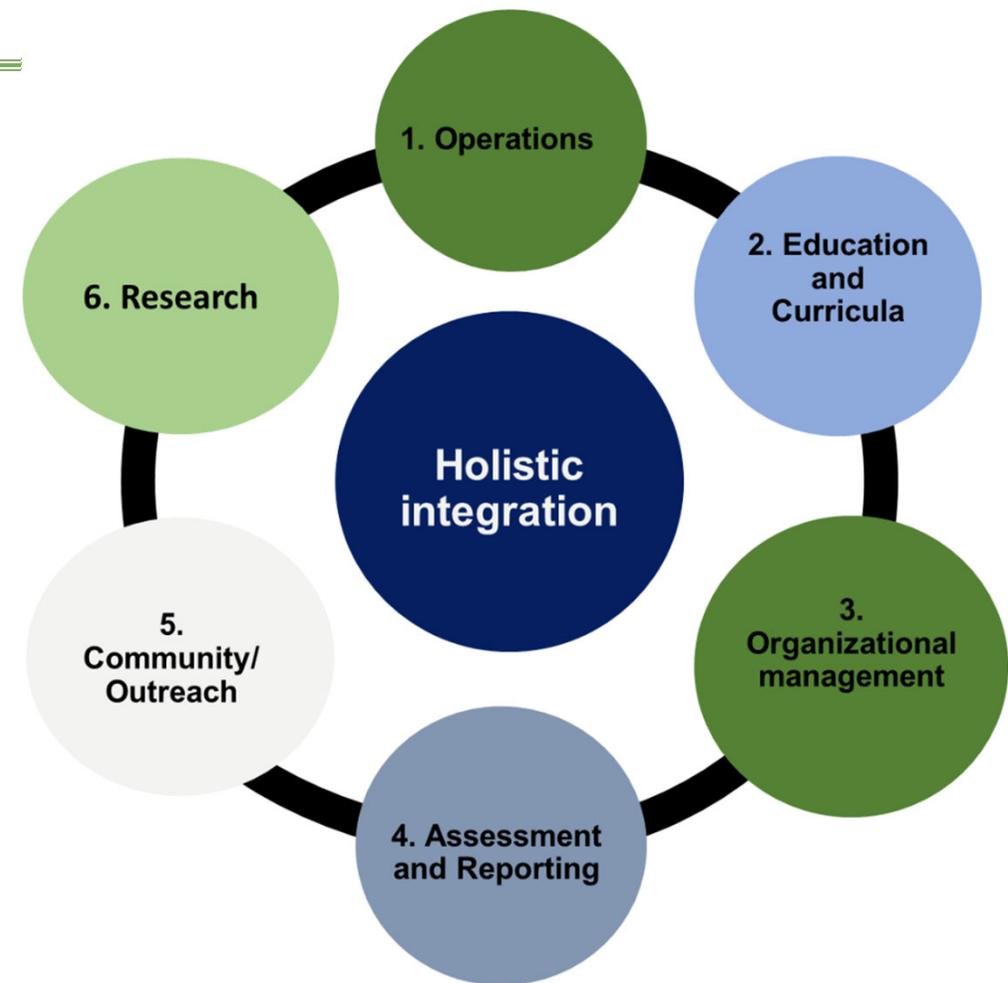

Mission Areas of Higher Education Institutions

# SAT Core Elements (Dimensions)

---

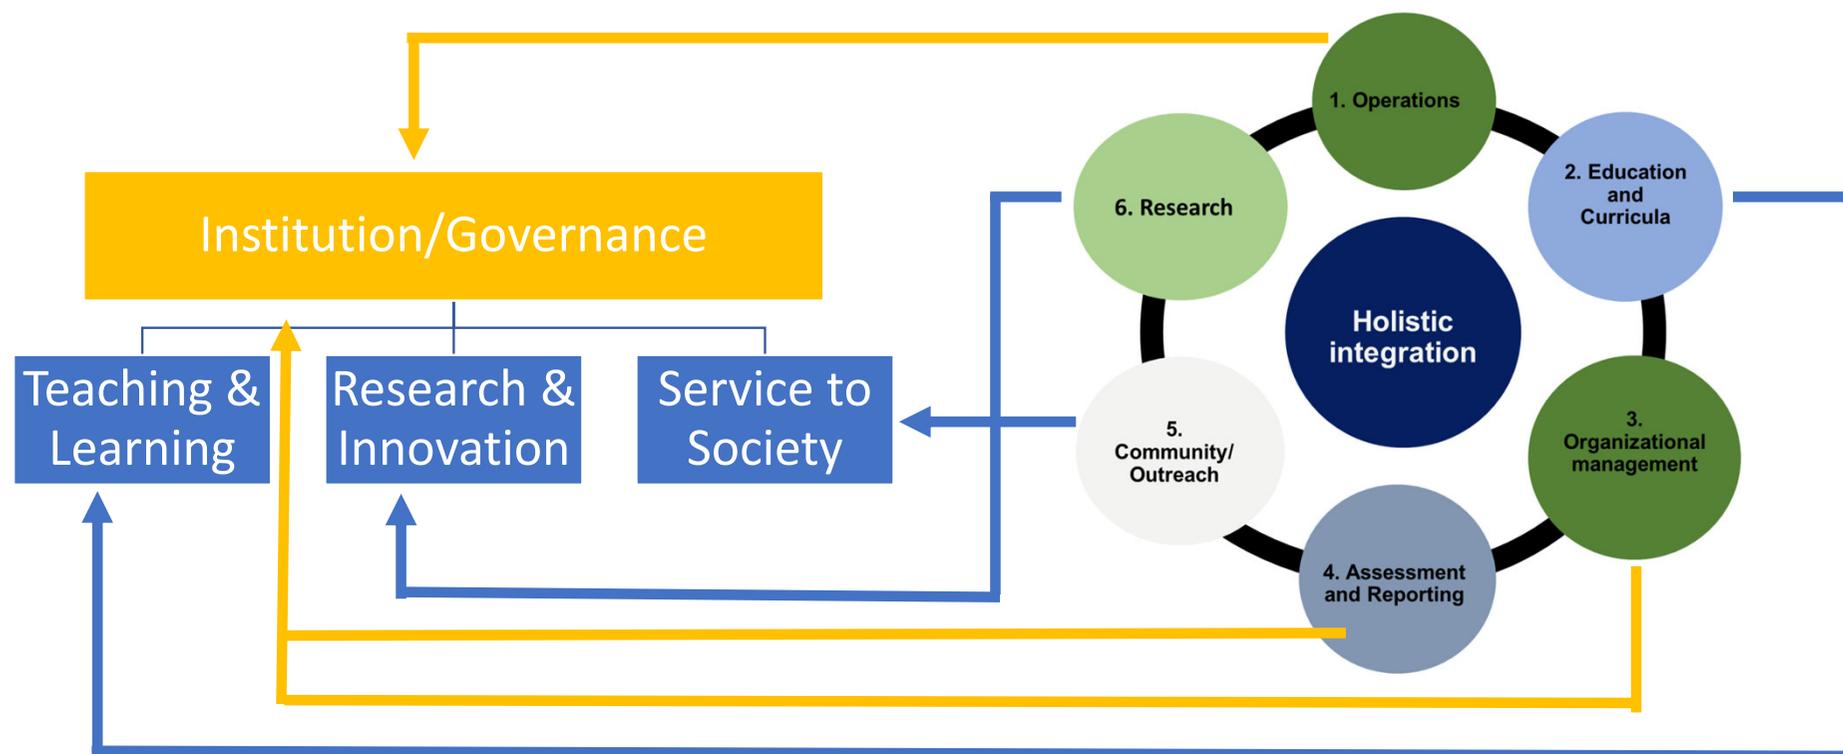

General core elements (Dimensions) identified in SATs:

- Operations
- Education
- Research
- Governance/Organizational management
- Community/Outreach
- Assessment and reporting

*Adapted from Lozano et al. (2015a) and UNESCO (2012)*

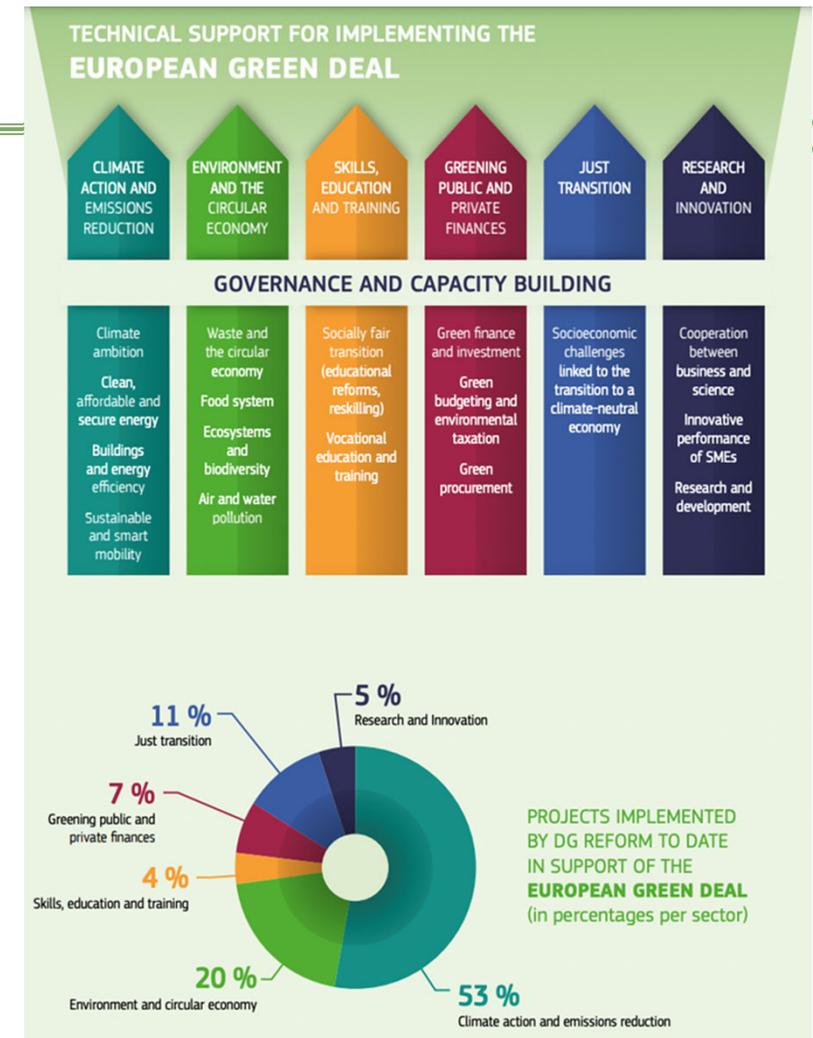

# Element Mapping to HEI Functions and Missions

*Adapted from Lozano et al. (2015a) and UNESCO (2012)*

# Sustainability Dimensions will need to link with European Green Deal Priorities

1. Climate Action and Emissions Building
2. Environment and the Circular Economy
3. Skills, Education and Training
4. Greening Public and Private Finances
5. Just Transition
6. Research and Innovation

# The HE Green Champions training system

- Boost the green transition capacity of internal stakeholders
- Staff and Students
  - To support their involvement in sustainability initiatives both internally and externally through training and awareness tools
  - Components such as fact sheets, videos, quizzes, and training elements designed to increase awareness and drive change
- Leaders
  - Embed sustainability into the operations of a HEI
  - Training relevant to the sustainability dimensions and indicators of the self-assessment tool

Information, training and best practice examples in sustainability for HEI Leaders/Management to drive the green agenda

Information, training and best practice examples in sustainability for HEI staff to drive the green agenda

Information, training and best practice examples in sustainability for HEI students to drive the green agenda

# The HE Green Champions training system

Training will need to take on lessons learnt from the following

- [The United Nations Climate Change learning platform](#)
- [Business Energy Scotland](#)
- [Strategic learning for sustainability](#)
- [Sustainability for leadership](#)
- [Net zero training](#)
- [Zero carbon academy](#)
- [Establishing a 'green champions' network](#)
- [Learning for Sustainability Champions Training](#)
- [iiE Green Champion online course](#)
- [Green Champions Environmental Engagement \(GEP Certified\)](#)
- [The Green Teams Programme](#)
- [50 shades greener education](#)

## 2. The HE Green Champions training system

### Resources

- [Guidance on policy-writing, waste and energy use](#)
- [Case studies from Scottish Cultural organisations](#)
- [Maynooth University Energy Management Programme – TZC Case Study](#)
- [Templates, tips and resources](#)
- [Toolkit: Fostering green champions at work](#)
- [University College London green champion resources](#)
- [Evaluating green champions, their role, definitions and place in a HEI's carbon reduction strategy: Final Report](#)

# HE Green Zero

- Online tool with the ultimate goal of achieving net zero energy on school/campus sites. It will be based on available best practice examples, and it will be relevant to the dimensions and indicators of HE Green Assessment tool.
- Three step approach:
  - 1) Review available good practices among the partner institutions and associated partners
  - 2) Search and discover good practices outside our own networks
  - 3) Peer reviews including relevant stakeholders from industry, policy, society and also students from relevant courses

# Associate partners

---

**Associate partners** are drawn from, participating country ministries, HEI representative bodies and an existing European University

- Alliance of Sustainable Universities in Austria
- Austrian Ministry of Education, Science and Research
- Bulgarian Ministry of Education and Science
- EAIR – The European Higher Education Society
- Irish Higher Education Authority
- Portuguese Erasmus+ Education and Training National Agency
- Regional University Network – European University RUN-EU (*represented by FHV*)

# Involvement of Associate Partners

- **Up to date information** in terms of current and future EU, national, sectoral and institutional level priorities, and initiatives relevant to delivering on the EU green transition which will inform the content of the GET-AHED platform
- **Feedback on the progress and development** of the platform directly from a range of potential end users
- **Guidance and support on the dissemination**, and sustainability of the platform across the EU HE community going forward
- Make sure that issues of **inclusion, promotion of women and young academics** are considered in developing HEIs towards green transition
- **Support the sustainability of the platform** in promoting its use across their HE systems and by making it readily available through their own mainstream HE sustainability initiatives.

# The Result

- The GET-AHED platform will offer an intuitive and accessible user experience, while also ensuring access to an **extensive range of material**, presented in a **practical and pedagogically effective format** which also facilitates effective “real-world” transfer and impact for all users and stakeholders.
- **A user oriented digital platform – GET-AHED platform**
  - promoted with the assistance of associate partner ministries and HE bodies
  - being the basis of or be integrated into current and future EU led online green transition initiatives
  - having a reach and impact that will be far greater than traditional face to face conferences, seminars or training events

Sustainability is here to  
stay or we may not be.

Niall FitzGerald
